

**WE CARE FOR THE COMPANION ANIMALS
DISCARDED BY SOCIETY.**

*If your companion animal won't wear
a condom, get him FIXED!*

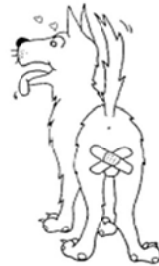

In 7 years, one cat and her young can produce 420 000 kittens...Responsible animal guardians neuter their companions for several reasons, one of which is the potential for unwanted litters. There are many thousands of abandoned, unwanted domestic animals living wild. As a male can cover many females, it is essential that males be neutered too!

Is your cat a
floozy?
Neuter now!

**"Litter" is just another
word for trash!**

Please oppose the death
penalty and neuter your
animals!

To neuter is cuter! Spay
or neuter your
companion today.

- Neutering male dogs and cats reduces the incidence of prostate cancer.
- Pets are less likely to bite. Neutered animals are less likely to roam and fight.
- Unaltered animals often exhibit more behavior and temperament problems than those that have been spayed or neutered.
- Dogs and cats live longer, healthier lives.
- Animal companions are more affectionate.
- Neutered cats are less likely to spray and mark territory.
- Neutered dogs don't "ride" inappropriate objects.
